

Professor Eva Kassi, MD, PhD, is Professor of Endocrinology at the Medical School of the National and Kapodistrian University of Athens (NKUA). Since 2019, she has been a member of the Endocrinology Unit of the First Department of Propaedeutic Internal Medicine, “Laiko” General Hospitalof Athens. She graduated from the Medical School of Aristotle University of Thessaloniki (AUTH) in 1991 with distinction (“Excellent”) and obtained her specialty certification in Endocrinology, Metabolism and Diabetes in 2001. Since 2006, she has been a faculty member of the Medical School of NKUA.

She is Head of the Center of Excellence for Disorders of Calcium and Phosphate Metabolism (C.E.R.E.D.), Adult Chair of the Calcium and Phosphate Disorders Main Thematic Group (MTG-2) within the European Reference Network on Rare Endocrine Conditions (ENDO-ERN), and a member of the ENDO-ERN Steering Committee.

Professor Kassi has extensive clinical and academic expertise in Endocrinology, with a particular interest in osteoporosis and rare endocrine diseases (disorders of calcium and phosphate metabolism, hypoparathyroidism, hereditary phosphate disorders, and hypophosphatasia). She is actively involved in European Reference Network activities, patient registries, multidisciplinary collaborations, and educational initiatives aimed at improving the diagnosis and management of patients with rare endocrine diseases.

Alongside her extensive clinical practice, she is involved in basic and translational research, with particular interests in Metabolic Syndrome and its components, including metabolic dysfunction-associated steatotic liver disease (MASLD).

Since 2006, Professor Kassi has been actively involved in undergraduate teaching at the Medical and Dental Schools, particularly in Endocrinology and Biochemistry. She also contributes to more than ten postgraduate programs at the Medical School and serves as a member of the Coordinating Committee of the postgraduate programs “Metabolic Bone Diseases” and “Cardiometabolic Medicine.”

She has supervised more than 15 PhD candidates, 4 postdoctoral researchers, and more than 90 postgraduate students. She has authored more than 200 publications in leading international peer-reviewed scientific journals, which have received more than 10,000 citations, with an h-index of 46. She is a frequent invited speaker at national and international congresses and scientific meetings.
